| DATE | May 18, 2026                                             | AREA ASSIGNMENT | ITLMA Office  |
| TASK | End-User Computer Configuration and IT Helpdesk Training | SHIFT/ TIME     | 8:00am-6:00pm |

Today's training at AUMOVIO Autonomous Mobility Philippines Inc. focused on the complete setup of user laptops, including the "re-ds" system imaging process to ensure all devices match company standards. We also learned the best practices for responding to and resolving technical concerns from employees who contact our department for support. It was a really helpful session because it combined the technical steps of preparing hardware with the customer service skills needed to assist our colleagues. This experience made me feel more confident in my ability to manage workstation deployment and keep everyone's devices running smoothly without any issues.

| TASK | Comprehensive IT Infrastructure Support and Desktop Management | SHIFT/ TIME     | 8:00am-6:00pm |

Today at AUMOVIO Autonomous Mobility Philippines Inc., we were trained on how to set up and perform the "re-ds" system imaging process for both laptops and desktops. We also learned how to securely transfer critical files over to our admin account and effectively manage technical support requests from employees who reach out with their tech concerns. It was a very productive session that showed us how to handle different types of hardware while ensuring all data is safely backed up and organized. This training really helped me understand how our team keeps the entire company's infrastructure running smoothly and securely every day.

| DATE | May 20, 2026                                                         | AREA ASSIGNMENT | ITLMA Office  |
| TASK | Asset Logistics, Admin Data Migration, and Employee Helpdesk Support | SHIFT/ TIME     | 8:00am-6:00pm |

Today at AUMOVIO Autonomous Mobility Philippines Inc., we were trained on how to handle several important IT support and inventory tasks. We learned how to securely transfer files to our admin account and assist employees who reach out with technical concerns or need to claim their borrowed laptops. Additionally, we were trained on managing printer toner requests, which includes handing over the supplies to the staff and updating the system status to "deployed" once they receive them. This session was really helpful because it taught me how to balance technical data handling with asset tracking and daily employee support to keep our operations running smoothly.

| TASK | New Employee Orientation (NEO) and IT Policy Seminar | SHIFT/ TIME     | 8:00am-6:00pm |

Today at AUMOVIO Autonomous Mobility Philippines Inc., we attended the New Employee Orientation (NEO) program to better understand the company's foundation and guidelines. We listened to several seminars led by different speakers who shared valuable insights about Aumovio's company background, its role in autonomous mobility, and its future goals. They also discussed the essential IT policies we need to follow to keep company data safe and ensure everything runs smoothly. It was a really helpful session because it gave me a clearer picture of how the organization works and how we can protect its digital workspace while doing our daily tasks.

| TASK | Workplace Safety, 5S Methodology Training, and Orientation Assessment | SHIFT/ TIME     | 8:00am-6:00pm |

Today at AUMOVIO Autonomous Mobility Philippines Inc., we continued our New Employee Orientation (NEO) by attending seminars led by different speakers focused on workplace maintenance and safety. The speakers taught us about the 5S methodology system for organizing spaces so work can be performed efficiently, effectively, and safely and gave us clear guidelines on how to maintain cleanliness across the company. We also learned critical emergency procedures on exactly what to do in the event of an earthquake. After the seminars concluded, we took a comprehensive exam to test our understanding of all the topics covered throughout the day. It was an incredibly useful session that emphasized how keeping a clean, structured workspace directly connects to our safety and efficiency on the job.
